RUSSOUND - A SOUND SOLUTION

Residential & Commercial
Russound designs and engineers solutions that help our dealers expand their markets and reach more customers

1967 — TODAY

History of Quality and Innovation
For nearly 60 years, Russound has been committed to quality, cutting-edge technology, and superior engineering, consistently meeting industry standards and prioritizing our clients' needs.

Seamless Installation, Installer-Centric Design
Russound understands the installer's perspective, creating reliable products with features that ensure a seamless installation process. Save time and money with our easy-to-sell, specify, and install solutions, backed by extensive warranties.

STREAMING MULTI-ZONE CONTROLLERS

Introducing the New Streaming SMZ8 and SMZ16-PRE Controllers

Russound is proud to unveil the latest additions to our family of controllers: the SMZ8 and SMZ16-PRE Controllers. These state-of-the-art streaming controllers represent the culmination of our extensive research and development efforts, integrating cutting-edge amplification (SMZ8) and power supply technologies.

Key Features and Enhancements:

- Advanced Amplification (SM8) and Power Supply Technology: Leveraging the latest advancements to deliver superior sound quality and efficiency.
- Proprietary Streaming Platform: Our in-house developed platform ensures seamless and high-quality streaming experiences.
- Enhanced App Features: The updated application now includes graphic equalization, speaker presets, and a host of other features designed to offer unparalleled control and customization.

These new controllers embody our commitment to providing our customers with the most advanced streaming technology available. With the SMZ8 and SMZ16-PRE, we are setting new standards in performance and user experience.

BUILT IN SERVICES AVAILABLE

pandora Spotify TIDAL DEEZER TUNEIN SiriusXM vTuner

works with Google Cast Spotify Works with Apple AirPlay

With the Russound app, you can easily stream your favorite music directly to the SMZ8 or SMZ16-PRE, allowing for seamless control of your audio zones. The app lets you browse, select, and manage your music library or streaming services, delivering high-quality sound to each zone with just a few taps.

STREAMING MULTI-ZONE CONTROLLERS

SMZ8 8-Source/8-Zone Controller Amplifier with Streamer

- Built-in Hi-Res Audio Streamer with all of the popular sources and support for both AirPlay and Google Cast.
- 50 watts per channel
- HDMI Input (ARC) for connecting to a TV or video source with low latency synchronization to avoid lip synch issues
- Integrated DSP – 7 Band Graphic EQ with built-in presets for Russound Speakers
- Controllable with XTS7, IPK-1 and Russound App
- Scalable up to 48 zones

A POWERFUL HOME SOLUTION

The Russound SMZ8 (pictured) and SMZ16-PRE are the perfect streaming solutions for whole-house audio systems

The Russound SMZ-Series are the perfect streaming solution for whole-house audio systems, combining power, flexibility, and seamless integration. With its built-in high-resolution MBX audio streamer, the SMZ-Series offers effortless access to today's most popular streaming services, including Apple AirPlay, Google Cast, Spotify Connect, and Bluetooth. They even support local music from USB drives or external hard disks. With 50W per channel and built-in Wi-Fi, the SMZ8 delivers robust performance and easy installation in any room, even where Ethernet drops are unavailable. The SMZ16-PRE can be paired with amplifiers such as the D-Series, and is expandable up to 96 zones. Pair these with Russound in-ceiling speakers to experience rich, detailed sound throughout your home, while the IPK-1 single-gang wall-mounted IP keypad and the elegant XTS7 7" touchscreen provide intuitive control from any room. Thanks to its HDMI input, advanced DSP with speaker presets, and 7-band EQ with pink noise generator, the SMZ-Seies ensure optimized performance and synchronized audio/video experiences—making it the true backbone of a modern whole-house entertainment system.

ADVANCED MULTI-ZONE CONTROLLERS

MCA-66 6-Source/6-Zone Controller Amplifier

The MCA-66 is a 6-Source/6-Zone controller amplifier. 6 zones of audio with adjustable bass/treble/loudness/balance with analog amplifiers providing 20W/channel to all 6 zones, 6 source inputs and fixed or variable line outputs for zones 1 and 2, routed IR, built-in IR learning and a preprogrammed IR library, paging (optional source 6) and doorbell muting. *Bluetooth* ready.

The Russound MCA-66 offers a cost-effective alternative to the SMZ series streaming amplifiers, delivering robust multi-zone audio distribution without compromising on essential features. Its six-zone architecture and built-in streaming capabilities provide excellent value, making it an ideal choice for those seeking quality sound on a budget.

BSK-2 *Bluetooth* Source Kit

The BSK-2 Bluetooth Source Kit from Russound adds significant new features and functionality from the popular prior model. The BSK-2 is designed to add full-featured Bluetooth audio to any audio system and offers a unique range extension of up to 500' by allowing the remote location of the transceiver module anywhere in the home. The BSK-2 is comprised of two components, the BTC-2X Remote Transceiver and the BTC-2 Audio Hub that is used for the audio wiring and power connections.

Back

Front

BTC-2X *Bluetooth*® Remote Transceiver

The BTC-2X Remote Transceiver is designed to add a single source of Bluetooth audio to the Russound MCA and SMZ controllers which have all of the audio and power connections to support it already built-in. The BTC-2 audio hub is therefore not required for a single source offering cost savings to easily add Bluetooth to Russound controllers. The BTC-2X can also be used as a standalone Bluetooth audio source when the extra 500' (152m) of extension is not required.

ADVANCE MULTI-ZONE SYSTEM CONTROL

XTS7 Wall-Mounted Color Touchscreen

The XTS7 is the latest generation of XTS touchscreens from Russound and offers more features than ever before. From its gorgeous 7" screen that installs into a US 1-gang or 2-gang electrical box/p-ring or even a slim 65mm Euro box to its native Android operating system that enables you to easily add apps from the Google Play Store, the XTS7 can be your primary user interface for any smarthome device, including your Russound audio system.

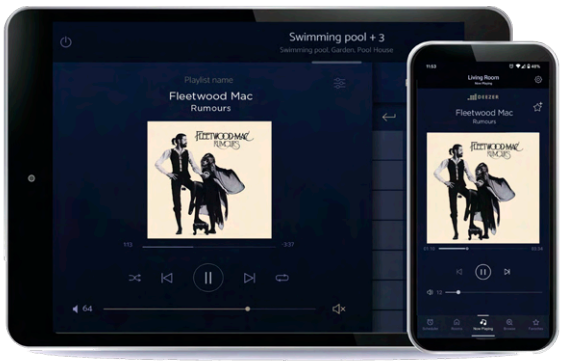

- 7" (17.8cm) Touchscreen
- Elegant In-Wall Design
- Android Operating System
- Install your favorite apps from the Google Play Store
- Russound App pre-installed to work with the MBX-AMP, MBX-PRE, MCA-66, MCA-88, SMZ8 and SMZ16-PRE
- Installs in a 1-Gang or 2-Gang Box or with a low-profile P-ring
- PoE Powered (802.3af)
- Wired/Wi-Fi
- Built-in Bluetooth audio support
- Installs in both Portrait and Landscape orientation

MBX STREAMING AUDIO SOLUTIONS

MBX Streaming Audio Solution

The MBX-Series is built from the ground up with a dedication to wireless streaming - The MBX-AMP is a full-featured streaming audio player with a built-in amplifier; the MBX-PRE is a preamp-only (non-amplified) version designed to be the perfect streaming audio source for Russound's controllers like the MCA-66, SMZ8 and SMZ16-PRE. These new streaming MBX-Series products give you the flexibility and reliability needed to satisfy the needs of any clientele. And they deliver high-res audio performance that today's customers demand. And now with the ability to take voice commands from Amazon Alexa and Google Home, these new streaming products are a welcome addition to any customer's home to make listening to their favorite music faster, easier and more enjoyable than ever before.

PROFESSIONAL DIGITAL AMPLIFIERS

New Professional Series Digital Amplifiers

Russound's new state-of-the-art Class-D amplifiers feature a robust, optimized voltage-tracking power supply. These amplifiers are crafted to deliver the best possible dynamic power to your audio while maintaining the ease of use and setup that Russound is known for. Developed to work seamlessly with volume controls, MBX series, receivers, and many other devices, these amplifiers offer easy setup for low and high frequencies, making them ideal for satellite and subwoofer applications.

1. Dual Bus Inputs – Allows for up to 2 different audio sources to be configured to be shared among any of the amplifier's zones
2. Dedicated Zone Input – Allows for a dedicated audio source to be provided to each of the amplifier's zones
3. Level Gain Adjustment – Allows for a gain adjustment (increase/decrease) for every zone
4. Zone Input Selector – Setting this allows for an easy configuration for either using Bus Input A, Bus Input B, or the dedicated Line In for each zone
5. Audio Filter Setting Switch – Easily set for Low Pass (LP), High Pass (HP), or Full-Range (Full) depending on the audio needs for each zone
6. Stereo/Bridged Mode Switch – When bridging a zone's channels into a single, mono zone, set this to Bridged. Please note that speaker wiring must be re-configured for Bridged Mode as outlined in the owner's manual
7. Speaker Connection – The removable screw-down speaker selectors accept up to 12AWG wire
8. Turn-on Mode Switch – Set for Always On, Auto-Sensing, or 12V for use with the 12V trigger input
9. 12V Trigger In/Out – To enable automated turn-on and turn-off via a 12V DC trigger. When using the trigger, make sure to set the Turn-On Mode Switch to 12V

ROOM-FILLING SOUND

Russound's mini-AVR's are a game changer in the audio industry. Their built-in HDMI ARC input with CEC control means that these compact, powerful, low-profile mini-AVRs can be used seamlessly with any modern television without the need for any remote control other than your native TV or cable-box/ satellite remote that is already being used. If desired, their multiple inputs can be used to convert the AVA-Series into a mini-receiver supporting up to 4 total inputs (HDMI, Digital Optical, Line-Level Stereo, Bluetooth) and they include an external IR sensor and full-featured remote control.

WHAT'S INSIDE THE NEW AVA SERIES

MINI-AVRS

AVA2.1 2.1-Channel Low-Profile Mini-AVR with HDMI

ON WALL SPEAKER SERIES - CINEMA BAR

New Professional On-Wall Series Speakers: Introducing the Cinema Bar

Russound's new soundbar features a 3.0 on-wall full-range speaker system. Equipped with a 4-inch polypropylene drive, a 4-inch polypropylene passive radiator, and a 1-inch signature Russound tweeter for every channel, this soundbar delivers both performance and value. The Cinema Bar has been specifically designed for use with the AVA 3.1, providing clean, dynamic performance with an easy installation and a TV-matched appearance.

We've got installation covered, so you don't have to.

- The Cinema Bar features three integrated mounting options: a standard hook, a slider bracket for precise centering, and TV-ready inserts
- Designed to be compatible with the AVA3.1
- Engineered from the ground up for superior acoustics
- Equipped with large terminals to accommodate all your wiring needs

A SPEAKER FOR EVERY APPLICATION

For more than 20 years, Russound has refined its architectural loudspeakers to deliver uncompromising audio, elegant design, and seamless integration into any décor. Every component meets exacting performance standards. The latest IC-Series offers best-in-class options for everything from budget-conscious installations to audiophile systems—all designed to be heard, not seen.

Russound speakers are optimized for our whole-home and in-room amplifiers, maximizing efficiency and power handling, while remaining compatible with other amplifiers. Products purchased and installed together may qualify for Russound's Double Your Warranty program. Learn more at www.russound.com/warranty-registration.

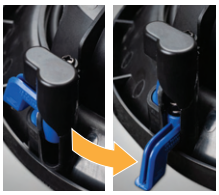

YOU'LL NEVER WANT TO INSTALL SPEAKERS ANY OTHER WAY AGAIN*

Engage

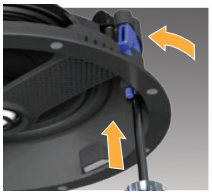

To engage the new SwiftLock™ feature simply position speaker in the ceiling and push the blue buttons

SWIFTLOCK™ BY SWARM

Instant Locking

The dog will automatically rotate and then clamp down compensating for the thickness of the ceiling or wall while also locking into place for a secure and solid installation

Quick Release

If you ever need to remove the speaker, it's quick and easy, too. Simply push the SwiftLock dog in and make a half-turn with a screwdriver to lock it back into place, ready to activate again at the press of a button.

** Available on 20 and 30 Series Loudspeakers*

DOUBLE YOUR WARRANTY PROGRAM

Here at Russound, we take our commitment to product quality seriously. Maximizing your enjoyment of our products is important to us. That means that our warranty is not just some words in your owner's manual. To us, it's a commitment by a team of integrators, engineers and designers that stand by their work.

DOUBLE YOUR WARRANTY*

BY BUYING RUSSOUND SPEAKERS WITH THIS PRODUCT

You can double your warranty period on select Russound products by:

- Purchasing an Eligible Products listed on Russound.com/warranty-registration with the corresponding number of Russound speakers.
- Register the Eligible Products and their accompanying speakers using the form within 30 days of purchase.

30 SERIES LOUDSPEAKERS

The 30 Series are Russound's premium performance loudspeakers, designed for intelligent highs and deep rich lows. Using advanced materials from the pivoting titanium tweeter to the injection-molded polypropylene cone with a vapor-deposited titanium coating for enhanced rigidity, the 30 Series performance will blow you away and will continue to impress you for years of enjoyment. All 30 Series speakers are acoustically matched to one another, so you can mix and match between the sizes as needed.

IC-630 6.5" Premium Performance Loudspeakers

a sound relationship

Russound

Established in 1967, Russound has been dedicated to providing high quality audio products focused on sonic fidelity, reliability, and ease of use. That focus only intensified when Russound's current owner, Maureen Baldwin, acquired the company in 1987. Her love and passion for manufacturing led to vast improvements in product design, and the modernization and streamlining of the fabrication of the products and dramatically improving the performance and reliability for its customers. Through the years, Russound has grown from its humble beginning as a cottage industry, manufacturing products at its facility in New Hampshire, to one of the most well-known brands in the audio industry with a focus on providing best-in-class products for professional installation in homes and businesses throughout the world.

With Maureen's manufacturing expertise in the sheet metal industry and her drive for gathering customer feedback, she was able to immediately implement key changes in the products and their design for transformative improvements to the company. From the first day she acquired the company, her vision has led the company towards the future, from the early days of simple volume controls and speaker selectors for audio distribution and control, which Russound still sells today, to the modern, technology-driven era of streaming products, intuitive apps and touchscreens, digital amplification and high fidelity loudspeakers.

As a privately-held, woman-owned company, Russound is a unique entity in the world of consumer electronics and high performance audio and Maureen's singular focus on the customer experience continues driving the company today as it expands into new opportunities in commercial audio.

Russound is driven to excellence by its people and Maureen has assembled some of the industry's most talented people to drive Russound's growth throughout the years. A key addition to the company was the hiring of Joe Brouillet, who led Russound from 1989 to 2009. Joe was the key force behind the transformation of the company's product distribution strategy and its evolution into a global audio brand.

Charlie Porritt joined the company in 2000 after a history of working with some of the largest brands in the industry. Charlie had an immediate impact on the company and quickly rose to be its next CEO and a minority stockholder. With his dynamic personality and well-known sense of humor, Charlie has become Russound's ambassador. His leadership propelled the company in its vast sales expansion throughout the US and Canada and to well over 100 countries. Charlie's unique and innovative insight gained from his deep experience in both custom installation and audio has enabled him to take Russound to the premier position it holds in the market today.

Bill Ramsdell, VP of Engineering, with Russound since 1995, is the principal design engineer of the company and leads Russound's hardware and software design teams.

Colin Clark, VP of Products, who joined Russound in 2014 added his wide industry knowledge and experience to the company and propelled its expansion into new product categories and technologies.

Paul Wojciechowski, Director of Product Development, one of the latest additions to the team, joined in 2021, and used his years of experience in manufacturing, industrial design, acoustics, and mechanical engineering to launch the next generation of Russound's products.

Thank you, from all of us at Russound!
