

VOICE-TCH-AMP

VOICE-PS-2

VOICE-TCH-AMP

Upgrade any existing audio system with no new wires! Russound's new in-wall Touchpad with Alexa Built-in brings all the features of Alexa to a multiroom audio system and the Decora style blends in with today's home. This is a great builder solution and is easy to install in new or retrofit installations. You can use any existing audio system wiring from entry level volume controls to high end control systems to upgrade old technology to the latest features. Modern design to add Bluetooth, streaming options, multiroom audio, and app control to replace existing systems from ABUS, to CA4, CAA66, and even old CAV and volume control systems. The system is powered by a VOICE-PS-2 60W Audio Power Supply which can power up to two of the VOICE-TCH-AMP touchpads.
