

Russound VoicePlay™ Whole-Home Audio Solution

Voice-Controlled Music. Built Right into Your Home.

Fill your home with beautiful sound—controlled by your voice, your phone, or a simple wall keypad. Russound VoicePlay delivers premium music in every room without clutter, bulky equipment, or complexity.

What Is VoicePlay?

An **in-wall music system with Alexa® built in**. Features a sleek wall keypad with its **own amplifier**, driving ceiling speakers directly—no head-end rack, no shelves full of electronics.

Just say the word, tap the wall, or use the app.

Music in Every Room

Play your favorite music, podcasts, or radio in one room or throughout the entire home—all perfectly synchronized.

Voice Control Built In

Alexa is built right into the wall keypad. Ask for music, adjust volume, or control smart home devices—hands free.

App or Touch Control

Use your phone or tablet to select music, create groups, or control volume. Or simply tap the wall keypad.

Clean, Clutter-Free Design

No countertop speakers, no racks of equipment—just a clean keypad on the wall and discreet speakers in the ceiling.

Premium Sound Quality

Russound IC-610 ceiling speakers deliver clear vocals, smooth highs, and full bass—perfect for background or everyday listening.

Perfect For:

- Kitchens, living rooms, bedrooms, and offices
- New construction or remodels
- Replacing older in-wall volume controls
- Anyone who wants great sound without visible equipment

Beautiful Sound - Simple Control - No Clutter
